SEMESTER EXAMINATION: NOVEMBER 2020
PY 5118- ABNORMAL PSYCHOLOGY

Time- 2 1/2 hrs

Max Marks-70

This paper contains two printed pages and three parts

SECTION A

Answer all of the following questions:

(10x2=20)

1. What is blood-injection-injury phobia? What are the characteristics that make it a unique category of specific phobias?
2. What is dissociative fugue?
3. What are the two different types of popular children and two different types of rejected children?
4. What are somatic symptom disorders?
5. Differentiate between agonists and antagonists.
6. What are the different components of fear? Give examples for each.
7. What is derealization?
8. List any four characteristics of stressors that impact our experience of them and by extension, of the stress they produce.
9. Give any two sensory and two motor symptoms of conversion disorder.
10. How does one make a distinction between acute stress disorder (ASD) and post traumatic stress disorder (PTSD)?

SECTION B

Answer any four of the following questions:

(4x5= 20)

11. Is labelling an individual with a diagnosis harmful? Justify your stance.
12. Explain the General Adaptation Syndrome model.
13. Describe dissociative amnesia and indicate what aspects of memory are affected.
14. What is illness anxiety disorder? How is it different from somatic symptom disorder?
15. What are the primary symptoms of body dysmorphic disorder and how are they related to obsessive-compulsive disorder?
16. Why is it necessary to acknowledge the role of sociocultural factors in mental disorders?

SECTION C

Answer any **three** of the following questions:

(3x10= 30)

17. What are the different parenting styles? Explain each in detail, including the influences different parenting styles have on a child's development.
18. What is an adjustment disorder? What kinds of stressors are potential triggers for the development of an adjustment disorder? Explain any two in detail.
19. Compare and contrast the posttraumatic and sociocognitive theories in reference to the development of dissociative identity disorder (DID).
20. What is conversion disorder? How is it distinguished from malingering and from factitious disorder?
21. Give the clinical picture of obsessive-compulsive disorder (OCD). What are the other disorders included in this new category in DSM V and how do they relate to OCD?
